The test results relate only to the items tested. The report shall not be reproduced except in full, without the written approval of the laboratory. The reported uncertainty is based on a standard uncertainty multiplied by a coverage factor k=2, providing a level of confidence of approximately 95%. The uncertainty evaluation has been carried out in accordance with ISO/IEC 17025 and UKAS accreditation requirements. Unless otherwise specified, all Pass or Fail results are given without uncertainty considered. Where uncertainty is taken into account, the result may be denoted as 'Passive' or 'Fail' depending on the disposition of the customer's decision. Options and interpretations expressed herein are outside the scope of UKAS accreditation. Tests marked (*) in the test report are not included in the UKAS accreditation schedule for the laboratory.
